SAVINGS & LOAN ASSOCIATIONS

GENERAL REMARKS

In compliance with the provisions of the Louisiana Revised Statutes, there is submitted herewith report of the condition of the seventy-five State Chartered Savings and Loan Associations, and branches, in Louisiana, for the period ending December 31, 1980.

Total resources of the seventy-five State Chartered Savings and Loan Associations, for this period, amounted to $5,771,799,355, an increase of $197,169,839 over the previous year.

This nominal growth is attributed primarily to disintermediation of funds from savings and loan associations to money market mutual funds. Another factor was the conversion of Dixie Savings and Loan Association, the largest state chartered thrift institution, from a state charter to a federal charter. Dixie Savings and Loan Association converted primarily to take advantage of the more liberal federal branching policies.

Outstanding mortgage loans at the close of business December 31, 1980 amounted to $4,709,334,008, for an increase of only $120,011,028. This minimal increase is attributed to the high interest rates presently being charged for home loans. These high interest rates make home buying for the average family prohibitive.

At the end of the period, the associations had 861,069 shareholders who owned $4,955,455,519 of various savings accounts or certificates. This represents a small growth of only $206,683,930. Again, this nominal growth is attributed to investors finding money market mutual funds more attractive and the conversion of our largest state savings and loan association to a federal charter.

At the close of the period, the reserves and undivided profits amounted to $353,802,748, representing a decrease of $7,352,336. The decrease is attributed to the conversion of a state chartered association to a federal charter and the unprofitable operations experienced by some associations during 1980.

The Office of Financial Institutions has devoted much time to publishing rules designed to permit state chartered savings and loan associations to operate on a parity basis with federally chartered associations.

Unless high inflation is controlled in the very near future, we foresee most serious problems for the savings and loan industry nationwide during the next year.
